Tri-County ILC is a non-profit community based organization providing services and advocacy by, and for, all persons with disabilities. **We are not a residential facility.**

The Independent Living Movement was born out of both civil rights and the consumer activism movements of the 1960's. Tri-County ILC serves as a strong advocacy voice on a wide range of national, state, and local issues. We work to assure physical and programmatic access to housing, employment, transportation, recreation, health and social services.

The philosophy holds that individuals with disabilities have the right to live with dignity and appropriate support in their own homes; they have the right to fully participate in the activities of their communities; and to control and make decisions about their own lives.
